WORK EXPERIENCE

Bhatia Brothers

Jul 25 – Aug 26

Software Development Engineer

Vile Parle, Mumbai

- Developed and enhanced web-based solutions with a focus on responsive user experiences, performance, and maintainability.
- Built a business card scanning feature for WordPress using Azure Document Intelligence and OCR, enabling automatic data extraction and form auto-fill; integrated Azure Blob Storage for seamless image ingestion and management.
- Developed and deployed a custom GPT agent integrated with Zoho CRM, enabling users to fetch, view, and update customer information through conversational queries.
- Worked on API integrations to connect frontend applications with external services and business systems.
- Collaborated with UI/UX designers and backend developers to deliver intuitive and optimized web experiences.
- Improved website performance, maintained plugins, and implemented security enhancements to ensure reliable application performance.

Promodome Digital LLP

Jun 22 – Apr 25

Software Developer

Andheri, Mumbai

- Developed scalable web applications using React.js, Node.js, Express.js, and MySQL with a focus on performance and maintainability.
- Built and integrated RESTful APIs using Express.js and connected them with React.js frontend applications.
- Developed interactive frontend interfaces in collaboration with UI/UX designers and backend developers.
- Implemented database integration using MySQL to support application data requirements.
- Worked across frontend and backend components to deliver complete application functionality.
- Contributed to application performance optimization, API integration, and maintainable code development.

Freelance

Aug 21 – May 22

Wordpress Developer

Remote

- Developed eCommerce and portfolio websites tailored to diverse industries.
- Optimized WooCommerce stores for secure transactions and site speed, achieving PageSpeed scores above 90 Percent.
- Deployed websites on DigitalOcean using OpenLiteSpeed, ensuring high uptime and performance.
- Provided ongoing maintenance, performance optimizations, and SEO enhancements.
